Location	Paynesville, Monrovia, Liberia (administrative office)
Certification	SVL Training Academy Certificate, Diploma or Comprehensive Award on successful completion

1. About SVL Training Academy

SVL Training Academy is the professional training arm of Software Vala Liberia, Inc., designed to provide accessible, practical and career-focused IT, ICT and professional education. The Academy combines guided instruction, hands-on practice, assignments, projects and assessments so that learners develop skills they can apply immediately in school, employment, business, freelancing and entrepreneurship.

All programmes in this cohort are delivered fully online, allowing learners anywhere in Liberia and beyond to study without relocating or leaving their jobs.

About Software Vala Liberia, Inc.

Software Vala Liberia, Inc. is a leading global software company with a growing footprint in Liberia. Our platform offers over 25 software solutions both locally and internationally, tailored to education, finance, retail and other sectors. We are proud of our commitment to delivering high-quality software services at competitive, fixed prices.

Founded in 2025, Software Vala Liberia, Inc. began with a simple mission: to bridge the technology gap in Liberia and provide world-class software solutions to local businesses and organisations. We also use software solutions to build solar energy systems.

Based in Paynesville, Monrovia, Liberia, we understand the unique challenges and opportunities that come with operating in Liberia's growing digital economy. Our team combines international expertise with local knowledge to deliver solutions that truly work for our clients.

Today, we are proud to have helped over 6 businesses transform their operations through technology — from small start-ups to established institutions across various sectors.

Who the Academy Serves

Students and recent graduates; working professionals; entrepreneurs and business owners; aspiring software developers; TVET learners; NGO and institutional staff; aspiring IT technicians; and individuals seeking practical digital career skills.

2. Programme Types, Duration and Fees

Every programme in this cohort runs for 3 months (12 weeks) and is delivered online. Tuition is charged per course at one of three levels.

Programme	Duration	Tuition	First Installment
Foundation Certificate Programme (FCP)	12 Weeks	US\$125 + US\$10 registration	80% of tuition (US\$100) plus US\$10 registration
Professional Diploma Programme (PDP)	12 Weeks	US\$150 + US\$10 registration	50% of tuition (US\$75) plus US\$10 registration
Comprehensive Professional Programme (CPP)	12 Weeks + Capstone	US\$175 + US\$10 registration	40% of tuition (US\$70) plus US\$10 registration

Programme Notes

- **Foundation Certificate Programme (FCP) — US\$125:** Ideal for beginners and professionals needing foundational knowledge and job-ready skills.
- **Professional Diploma Programme (PDP) — US\$150:** For learners upgrading after completing a Certificate programme in the same or a related field.
- **Comprehensive Professional Programme (CPP) — US\$175:** Certificate and Diploma content combined, with a practical capstone project.
- **Other Fees — Celebration Retreat & Graduation:** US\$60 for Certificate learners | US\$70 for Comprehensive and Diploma learners.

3. Enrollment Requirements and Learning Commitment

- **Minimum:** High school diploma or equivalent for Certificate and Comprehensive programmes; a relevant Certificate qualification for Diploma programmes.
- Attend at least **80%** of live online sessions and achieve a minimum **70%** average.
- A **personal laptop, basic computer knowledge and a reliable internet connection** are required for all online courses.
- Access to the SVL Training Academy Virtual Learning Environment for classes, materials and assessments.
- 3 hours per week of live online class, supported by an additional 3 hours per week of self-paced learning activities and online resources.

Assessment Structure

Assignments	Quizzes	Practical Exercises	Final Project / Exam
20%	20%	20%	40%

Recommended passing score: 70%. Successful learners receive an SVL Training Academy Certificate of Completion.

4. Admissions and Enrollment Process

1. Apply Online — complete the SVL Training Academy online application form and select your preferred course and online session group.
2. Receive Confirmation via email within 24–48 hours. The Admissions Office may call to confirm your application details.
3. Make Your First Installment Payment — receive a receipt and become officially enrolled.
4. Join Orientation and begin your online classes on the scheduled start date.

5. Payment Options

- **Mobile Money (Lonestar):** [Account number and merchant code to be inserted by the Academy]
- **Orange Money:** [Account number and merchant code to be inserted by the Academy]
- **Bank Transfer:** [Bank name and account number to be inserted by the Academy]
- **In-Person:** Software Vala Liberia, Inc. office, Paynesville, Monrovia

Note: payment account details should be confirmed and inserted by the Academy before this sheet is published or distributed.
